Subject: Re: Letter to Ms. Jackson and Mr McLaren

Thank you Mr. Holman. I will forward this email to my colleagues in Seattle who are also working on this issue. It will save time from the letter making its way down from Mr. McLaren's office.

There is a whole team of people in EPA working on Bristol Bay watershed issues. We appreciate receiving any information and insights people can offer. A formal response to your letter will be mailed out after it makes it through the process.

Thanks again.

Phil

Subject: Letter to Ms. Jackson and Mr McLaren

Mr. North,

I wanted you to have a copy of the letter I recently sent to Ms. Jackson and Mr. McLaren.

Dear Ms. Jackson and Mr. McLaren,

I am writing in regards to a letter sent to your agency by Glen Alsworth, Mayor of the Lake and Peninsula Borough in Bristol Bay, Alaska.

As I'm sure you are aware, this is concerning the proposed our regions request for Clean Water Act 404c action and the Pebble Copper/Gold mine in Southwest Alaska.

Mayor Alsworth is currently the main subject of an Alaska Public Offices Commission investigation regarding non disclosure of funds to his business from various sources including the Pebble Partnership.

The State is now in the investigative process and has extended the timeline into January 2011.

The complaint alleges that Mr. Alsworth violated numerous laws by initiating and fulfilling contracts for his private business while acting on behalf of the local Borough government as sitting Mayor.

I would urge caution in taking much stock in Mayor Alsworth's personal opinions as he does not speak for the people he represents or the majority of the assembly.

Mr. Alsworth has openly admitted to many of the allegations and doesn't seem to understand that what he is doing and has done for years is illegal.

Thank you for your consideration in this matter and your concern with our environment.

Sincerely,

John Holman
